Let's Read This Month's Story!

Columbus Day

Monday, October 14th

In August 1492 Christopher Columbus sailed the ocean blue with three ships named the Nina, the Pinta, and the Santa Maria to find land. The journey was long and difficult and at one point his men wanted to go back home. Columbus promised them he would turn back in two days if they didn't find land, however he had no intentions of turning back.

On October 12, 1492 Columbus finally spotted land. It was a small island in the Bahamas. He met natives there he called Indians. He also visited other islands in the Caribbean.

After making his discovery, Columbus was happy to return home to Spain where he was treated like a hero. He presented some of the things he found on his journey including turkeys and pineapples.

The King of Spain was pleased with Columbus when he returned home, and funded Columbus future journeys.
